

I would like to express to you what a blessing K-love is to me and my family. Three years ago I needed extra spiritual guidance. I was a struggling Christian and I could not find the answers I needed outside of my Church except for K-love. If I was having a difficult day, just the right song would come on to encourage me to make it through. Their prayer staff prayed for me and even the scriptures of the day at times I felt were directed personally at me.

We need radio stations like K-love for people to go and fill their hearts with something positive. I now have a daughter that is just learning to talk and she loves trying to sing along with the songs on K-love. I would not want her trying to sing the songs on the other radio stations.

I can say that I am here today; because of the encouraging words I heard (and still hear) on K-love. If I had not had the opportunity to listen to K-love, I don't think I would be the happy, healthy wife & mother I am today.

Thank you for your time.

Wendy Boyd
